Page Yield: **9,000**

MSE BRAND FEATURES & BENEFITS

Our Secure Seal Technology provides an OEM-type user experience. This cutting-edge, scalable technology uniquely positions MSE brand in developing cartridges for today, as well as for future generations of printers utilizing a similar technology platform.

Patent pending robotic hopper re-mating process maintains original OEM floating design.

Robotics ensure equal distribution of material.

Proprietary robotics and process automation for remanufacturing equates to a higher success rate.

MSE approved this product using the markets most exhaustive testing protocols, including: environmental stress testing, accelerated aging testing, shipping simulation.

OEM INFORMATION

Released in September 2015, the M506 series replaces the P3015 series.

Every aspect of our MSE brand products, from quality and reliability to aesthetics and environmental impact, is thoroughly analyzed on an ongoing basis. We look for areas of improvement beyond the industry standard and create ground-breaking technologies to keep pace with OEM design. The result is Your Best Alternative to the OEM.

Ensuring long-term quality and reliability is the foundation of customer satisfaction. We understand that without strict adherence to quality standards, you simply cannot have a product that is competitive to the OEM. Our commitment is ensured by the most rigorous 5 step QC process in the industry.

ISO 9001:2008 certification is a global standard that the world's leading companies use to establish quality management system. ISO 9001:2008 connotes quality to global consumers and MSE brand adheres to these standards and strives to continuously improve, therefore providing the best customer experience.

Secure Seal Technology is a cutting-edge, scalable technology that uniquely positions the MSE brand in developing cartridges for today, as well as for future generations of printers utilizing a similar technology platform.
